

Years 3 and 4 Newsletter
Spring Term 2019
Mr Bland, Mr Brocklebank, Ms Hodgson

Our topic for terms 3 and 4 is Extreme Weather

Welcome back to school for the Spring term.

Children in Y3/4 have a Reading Log which they will use to work towards gaining Reading Certificates. We encourage Key Stage 2 children to read daily and as widely as possible; fiction, non-fiction, newspapers, online blogs, etc. Reading books are available in classrooms to take home, as well as Library books too.

PE:

PE will be on Wednesdays AND Thursday.

Please also ensure that earrings are either not worn on PE days, or that your child can take them out by themselves.

PE kit and all school clothes should be labelled with your child's name.

Homework:

We expect times tables to be practiced daily at home.

Children will continue to bring a reading log home to be completed. Maths Homework will be via the Website 'My Maths.' There will also be an additional Project to do.

Thank you for your help in supporting your child's learning.

Our Topic this term is Extreme Weather

Weather is something that we are exposed to every single day.

Children will learn about different types of weather that we experience in Britain, and also extremes of weather from around the world. They will learn some of the reasons why these types of weather occur where and when they do.

Children will also look at general climates from around the world and learn why some places are hot and dry, whilst others may be cold and wet. We will also look at the fact that even though weather is different all around the world, our weather systems are all interconnected, and how these impact people's lives.

If you have any concerns, please do not hesitate to contact your child's class teacher.

Thank you for your continuing support.
