## E – Safety Home School Agreement at Mablethorpe Primary Academy

The modern world is moving fast, and technological advances are having an impact on our lives. We as adults can shop at any hour, communicate constantly with friends and family, explore the world through news, images and videos and even switch the lights and heating on before we get home.

Yes, the impact of this can be amazing, but unfortunately this comes at a cost. Our pupils also are online, have new technology and sadly this brings with it safeguarding and well-being concerns for our children. For us to protect your children, we must work together to ensure their safety.

### The role of the school

We use new technology to excite and engage our pupils. Technology at Mablethorpe enhances our curriculum and engrosses our learners. Our aim is that learners use the internet and technology to create, explore, analyse and research.

We want our learners to leave Mablethorpe Primary Academy with the confidence to use computers, programming tools, the internet, and apps to enhance their lives. We teach them how to do this in a safe way while they are at school.

This home school agreement will support you in beginning conversations about e-safety with your child.
