

How does our geography curriculum support British Values, SMSC and our whole school MPA values?

<p>Democracy</p> 	<p>The Rule of Law</p> 	<p>Individual Liberty</p> 	<p>Tolerance and mutual respect</p> 
<p>In the Geography classroom, we have respect for our fellow pupils and encourage everyone to have the confidence to express their ideas and opinions regarding geographical issues such as pollution, environmental issues, water and globalisation.</p>	<p>In Geography pupils examine different codes for living and consider the value of the rule of law where all people are equal before the law. Children are given the opportunities to explore and evaluate the outcomes of meetings such as those surrounding climate change. We will also investigate laws at a local and global scale can influence both the physical and human layout of the landscape and contribute towards population decline and growth in certain areas.</p>	<p>Children will explore their own individual liberty in terms of exploring their own career paths within Geography and surrounding the subject having the freedom to pursue any further interests they may have. When comparing and contrasting locations children will also explore the people living in these environments and their own individual liberties.</p>	<p>Children consider questions regarding how different cultures live and work throughout the world. Children have the opportunity to explore how areas have changed and how the diverse needs in society has changed them. The geography curriculum at Mablethorpe Primary Academy also helps to demonstrate the diversity of people's backgrounds helping children to have further tolerance of different faiths and beliefs. Mutual respect is taught and given when children are expressing their opinions and beliefs about different geographical parts of the world and societies in them. Children are taught and encouraged to show respect to each other's beliefs, feelings and opinions by giving each child a forum to share these on with the expectation that these must be listened to. Children will discuss what it means to be British and learn how to question and challenge stereotypes respecting others opinions.</p>

How does our geography curriculum support British Values, SMSC and our whole school MPA values?

SMSC stands for **Spiritual, Moral, Social, and Cultural** development, which refers to the broader **personal development** of children and young people. It encompasses a wide range of **values, beliefs, and experiences** that shape an individual's identity and understanding of the world around them. SMSC is a crucial aspect of education, as it helps children and young people develop a strong sense of self and an awareness of their place in society.

<p style="text-align: center;">Spiritual</p>  <p style="text-align: center;">Spiritual</p>	<p style="text-align: center;">Moral</p>  <p style="text-align: center;">Moral</p>	<p style="text-align: center;">Social</p>  <p style="text-align: center;">Social</p>	<p style="text-align: center;">Cultural</p>  <p style="text-align: center;">Cultural</p>
<p>We explore beliefs and experience; respect faiths, feelings and values; enjoy learning about oneself, others and the surrounding world; using imagination and creativity; reflect.</p> <p>Appreciate the awe and wonder of natural and man - made environments.</p> <p>Exploring our own feelings about the people, places and environments that we are learning about.</p> <p>The study of real people in real places, and of our relationship with the environment, is at the heart of the geography curriculum.</p>	<p>We encourage investigations and debates into the 'rights and wrongs' of the growth of towns and cities.</p> <p>In Topics such as rivers, flooding and coasts consideration is given to how much these issues that arise are man-made and how ethical are actions are.</p> <p>Geography allows students to see and explore consequences and also to look at the situations from different points of view.</p>	<p>Questions and debates encourage the scenario of 'what would you do' in the situation relating to various topics in Geography, encouraging students to co-operate and resolve conflict.</p> <p>Comparisons of the social interaction of people during different times periods to their own.</p>	<p>Investigate various cultures and their influences across the world, whilst still looking and comparing to their own environment.</p> <p>Showing many differing cultural and social backgrounds different to that of Mablethorpe.</p> <p>Work within the subject allows children to express their opinions and communicate their knowledge in varied ways, including artistic forms such as the creation of their own volcanoes, pyramids, rainforests and pirate boats.</p>

How does our geography curriculum support British Values, SMSC and our whole school MPA values?

Our Geography curriculum at Mablethorpe Primary Academy will inspire in pupils a curiosity and fascination about the world and its people, that will result in a life - long appreciation, ensuring we respect and care for it for future generations.

Be Honest 	Be Kind 	Be Positive 	Be Resilient 	Be Aspirational 	Be Respectful 
<p>It is important we are honest in the geography classroom at MPA. Honest if we do not understand, honest if we have not tried hard enough or honest if we have not engaged as we should have. This will enable us to identify when things have not gone as we would have liked and more forward.</p>	<p>Kindness is modelled in all aspects of school life. In the geography classroom we are not only kind to each other, but we are also kind to the environment around us.</p>	<p>In geography positivity is included in all that we do. We stay positive when learning something new and we are positive about our local environment and the world to make it a better place.</p>	<p>In geography resilience is promoted by looking at the issues around the world and how we can make a change. Being able to find solutions to problems in lessons and put in to practice some of those solutions in our environment.</p>	<p>There are many careers within geography that the children can aspire to be. Learning about those careers and the world will enable us to become aspirational about our future and the world around us.</p>	<p>Being respectful of our environment is a crucial part of geography. Learning about our planet and how we can care for and respect it to improve our quality of life.</p>
